**ABSTRACT**

*Pakistan has given shelter to millions of people from Afghanistan for more than four decades. Still, it never acceded to the 1951 Refugee Convention. This study checks, what Pakistan must do for these refugees under treaties. It deals with important rules from treaties, the common law such as the no-return idea and guidelines but to make it easier I combined law review, example of other countries. The beginning includes some background information about refugee movement between Afghanistan and Pakistan. It asks main questions. Then the work details Pakistan's jobs for afghan refugees, common norms and soft rules. Those mix in with laws of Pakistan itself. A part of it talks about the rulings and policies of Pakistan. It shows where they are in excess of or below world standards. Looks from Iran, Turkey and Germany spot light diverse ways to deal with the refugee issues There are stories from after 2001 and 2021 showcasing Pakistan its actions on big group coming and going back. Numbers help there. Findings include that there are no treaties, Pakistan is following that include no force return etc. It sometimes does so quietly. But there are gaps in the local law that create problems of protection. Suggested new laws and deals with the world. Call for additional assistance from others to keep the refugees safe.*

**INTRODUCTION**

Pakistan has a long record of opening doors to Afghan refugees. Waves were being generated since the Soviet-Afghan war of 1979. At some times more than three million remained there. This resulted in Pakistan being a prime host of refugees. UNHCR data backs that. But Pakistan skipped the reference for 1951 Refugee Convention and 1967 Protocol. As a big host without the key treaty, questions are raised on its world law-for Afghan refugees. World norms still bind it without the treaty?! Pakistan laws are good or bad to global standards? Lessons to be Learned from Other Hosts on Balance Control and Protection?

The answer to the paper looks many ways. First lays world frame for care of refugees Includes treaties for refugees, human rights. Common law like no come back to harm. Guidelines shape acts. Second is the check on the laws and practices of Pakistan. No special refugee law so general outsider rules and quick fixes. Third brings compares from Iran, Turkey from Germany. Many are in Iran and Turkey near Afghanistan. Iran signed Convention. Turkey did with limit. Germany far but to take seekers with strong system. Comparing law ties turn to ground protection. Fourth Stories from Significant Times. Post-2001 After Taliban fall and US step Post-2021 Taliban return. Highlight Pakistan responses follow Issues human effects stats.

This matters now. Pakistan faces new Afghans following 2021 Afghans takeover. Started big deport no papers ones. The returning outsiders are concerned on returns and rights breaks Know duties not just theory but real for refugee safety to provide Paper argues convention Pakistan not in law void. Common law and treaties cover jobs that are core. Main no return to harm. Those are seen at times by Pakistan courts. But there are country law gaps and patchiness in following up leave refugees that leaves them at risk. Next parts detail. Paper ends with fixes for Pakistan laws and world share to help hosts, refugees.

## **METHODOLOGY**

This work law check simple for see duties a country acts. Main sources is world treaties such as Refugee Convention 1951 and 1967 update. UN papers come in too. Common law notions get looked at in order to show Pakistan's jobs for refugees. The soft rules are checked in the study extracted from the meetings of UNHCR and the Global Compact on Refugees. Those guide but don't force. To relate a law to real life, it brings the stories of the Afghan refugees in Pakistan. Focus on times after 2001 and 2021. Numbers from Brittany in UNHCR and Trusted groups show flows and responses. Compare to the Iran, Turkey and Germany. Each have different stands of law on refugees. This assists in spotting the good acts and lessons to Pakistan. Sources include writings from schools, views from the law, reports made by Non-Governmental organizations (NGOs), the United Nations and their courts. All get cited in OSCOLA style. I wrote fresh in a serious way. The mix brings the complete picture of the laws and true refugee duties in Pakistan.

## **International Legislation for the Protection of Refugees**

### **Treaty Obligations and International Conventions**

The primary law of refugees is contained in the 1951 Refugee Convention. It says who is refugee rights states give. Core is Article 33 no return. Stops expels or sends refugee to threat of life or freedom. Also shields from punish on wrong entry Article 31. Gives rights like courts, school, work, papers close to locals or legal outsiders. Pakistan had not ratified Convention or 1967 Protocol. So not bound by treaty terms. But Convention norms shape world acts to the extent that it guides common law and expects. Not join no free from basic human ideas most accept.

Pakistan attended other treaties that have links with refugee duties. Key International Covenant on Civil and Political Rights ICCPR Convention Against Torture CAT Those bind to respect rights to all in land no bias include foreigners. ICCPR Article 6 guards life. Article 7 frees from torture or bad treat. Back ban send to risk be killed or tortured. CAT Article 3 says no expel return send to state with grounds for torture danger. Matches Refugee Convention no return So without refugee treaties Pakistan have duties from human rights to not send to harm. Courts note human rights tools for help skip no Convention by parallel shields

Pakistan signs Convention on Rights of Child (CRC). Asks no bias special care all kids include refugees. CRC Article 22 makes states give seeking refuge kids proper care help. Plus, together with worlds like 2018 Global Compact on Refugees show commit to share protect.

General world law no force states for asylum or admit refugee. States keep border control. But one time in or under control duties do apply. Chief nothing no return beyond Convention. States deals with refugees with basic human rights. Make sure that fair process key services no violence.

### **Customary International Law-The Principle of Non-Refoulement**

No return means no send refugees and seekers back to serious threats on life or on freedom. Seen as common world law. Comes from steady state acts And law feel. Binds all no matter treaty. Begun in 1951 Convention Article 33

Human nature led near all accept Even no join at like Pakistan can't deport refugees to harm. UNHCR jurists say no refugee refouled. Rule for all world. Pakistan law and courts know no return common. Recent case said common status binds all no matter Convention.

Common no return covers any shifting to risk persecution torture harm. Not just deport but indirect like make conditions bad so self return. Rights see refoulement as return to wide violence or quick harm even no personal Convention ground proof. Applies before status check. No expell'd seekers till they fair hear

Common law no general force of asylum or citizen give permanent. But must protect from force return treat humane in host. Pakistan bound ensure Afghan refugees seekers no back Afghanistan if threat to life freedom safety. Holds despite no sign. UNHCR appealed Pakistan uphold no return deport. Late 2021 after Taliban UNHCR gave no return advise. Asked all suspend force returns Afghanistan. Ask states like Pakistan common duties in bad condition reminding.

Beyond, no return other protect may emerge common or principles. Temporary refuge in mass come, to. No punish illegal entry. Not full common but strong. Pakistan court 2023 took Convention Article 31 as guide. said enter save life no crime under Foreigners Act. Some show protect basic enough shape local law even no Convention.

Common law binding in Pakistan Core duty of Pakistan to protect refugees from ill treatments return Violations such as mass deporting afghan to unstable violation of duties. Recent practices were criticized on that.

### **Soft Law and Non-Binding Instruments**

Refugee law influenced by soft tools no legal force but persuade. Pakistan engaged many. Help interpret fill Price hard law gaps.

Universal Declaration Human Rights 1948: Right of article 14 all rights get asylum persecution other land. UDHR declaration no force but base principles. To make expect humane treat flee to seek asylum sets. UN member Pakistan respect. Condemns turn refugees border no consider.

Duties informed hard laws + soft norms cooperative Emphasis on dignity is no return danger international solidarity Pakistan was in line of Remuneratory affirm the voluntarily repatriation forums. Weak incorporate implementation inconsistent domestic law policy.

### **Domestic Law of Pakistan and International Norms**

Pakistan has large long refugee group no dedicated law. No statute defines refugee status rights asylum procedures. Refugees under general laws of immigration. Foreigners Act 1946 main. No distinguish refugees other aliens. Approach Relying on ad hoc policies-executive discretion-external aid

Foreigners Act 1946 is a colonial law ensuring entry stay exit foreigners. Section 3 gives Federal wide powers control movement residency deportation. Section 14 criminal penalties jail fine illegal entry presence. Act no mention refugees exception asylum seekers. Strict reading Afghan cross border no visa escape persecution commits offense. Led arrests jails asylum seekers like clash domestic international norms Lack distinction undermine legal protection refugees

No formal recognition of refugees - domestic Government outsourced to UNHCR 1993 Agreement agreement UNHCR registration determines the status. Recognized at large in tolerant authorities though no lawful status Pakistan law. Arrangement works non-Afghan some Afghans individually. The rights (or rather non-rights) of leaves legal limbo protection hinge on discretion.

For large Afghan population administrative measures like Proof Registration PoR cards Afghan Citizen Cards ACC. register are required. Pre-date arrivals temporary stay deportation protection recognized through PoR 2006-07 census. Undocumented identification nationals temporary migrants ACC 2017 Improve documentation but no legislative base. Validity of government order short periods extended. Precarious of uncertain status. Expiration policy is shifted - illegal. PoR for 1.4 million prolonged dozens times over. Ad hoc opined against the fostering of anxiety.

Constitution no express refugees but guarantees fundamental rights all persons soil not just citizens. Right life liberty Article 9 By equality law 25 Due process 4 10A Dignity 14. Courts citing extending protection. Landmark Rahil Azizi v State 2023 Afghan from no visa fleeing threats.
